Gilbert Transportation Company Case. In the Gilbert Transportation case at New Haven, Attorney Wa-trous said that there were prob-ably pending 200 sults in the state courts of Massachusetts, Rhode Island and Connecticut, brought by the re-ceiver against stockholders to have de-termined the amount of the liability these stockholders are under to the company. In Connecticut the issues are joined and the cases were to be assigned for trial yesterday. It was unfair, he thought, to now ask for a change of furisdiction to the United States court. By such action, he said, all the work of two years in the state courts would be undone. Former Corporation Counsel Daggett of New Haven, appearing for bondholders, also opposed the petition of intervention.

Both lawyers said it would be a reproach to the practice of the law to change the cases from the state court to the federal court.

Phantom Ships That Reappear Times of Great Storms

The number of phantom ships is legion. Several of the vessels which were wrecked in close proximity of the Titanic disaster are even said to reappear in the same spot on certain conditions. No More Mock Funerals. One of the features of undergraduate life at Cambridge University, England. It's Olive Tablets For You! is threatened by the decision of the university and municipal authorities to co-operate in the attempt to put an end to the burlesque displays known as "mock funerals," carried out by the

The decision has followed closely upon one of the most uproarious mock funerals that Cambridge has ever seen. A popular student was expelled for breach of discipline, which his fellowstudents regarded as a "sporting act; so they formed a funeral procession onstrate his highly successful system of transforming aspiring singers into Carusos and Tetrazzinis.
